### Abbreviations:

#### Subjects:

AN = Anatomy

BI = Biochemistry

PY = Physiology

#### Teaching Learning Methods:

Demo = Demonstration

GD = Group Discussion

Lec = Lecture

Prac = Practical Session

SDL = Self Directed Learning

SGD = Small Group Discussion

SGT = Small Group Teaching

SLO = Specific Learning Objective

Semi = Seminar

Symp = Symposium

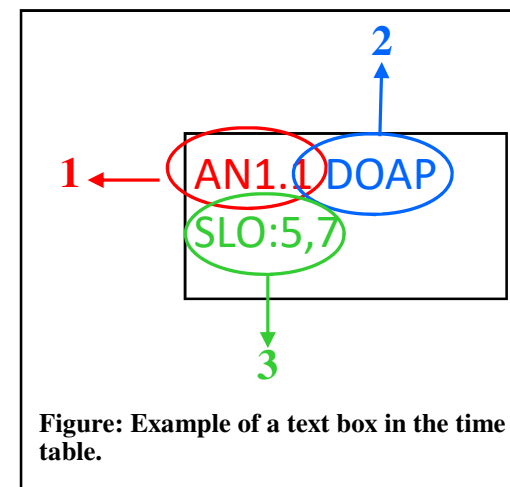

Tut = Tutorial

### Instructions:

Each box in the Time Table represents a teaching session (see the Figure above).

1. **The Unique Number of the Competency:** The first item in all the boxes (see Fig) is the unique number of the competency. The AN denotes Anatomy and 1.1 is the unique number of the competency. You can find details about the in one of the three volumes of the UG Curriculum at the MCI website <https://www.mciindia.org/CMS/information-desk/for-colleges/ug-curriculum>. For Biochemistry (BI), Physiology (PY) and Community Medicine (CM).
2. **The Teaching-Learning Method:** The second item in the box (see Fig) is the teaching-learning method adopted. It may be Lecture, Small Group Discussion, DOAP (Demonstrate Observe Assist and Perform) etc.
3. **Specific Learning Objective:** The third item in the box is the Specific Learning Objective to be achieved by the end of the teaching session. If all the SLOs in a competency are to be attained in a single session, the SLO numbers wont be given.

The 100 students will be divided into small groups of varying sizes for different small group teaching-learning sessions.
