Dear Colleague

The history of transplantation is an epic journey describing the daring efforts of the health team to defy illness and death. The outcome of patients undergoing transplantation depends on factors starting from preparation of donors and recipients to long term care and follow up which demands a multi disciplinary collaborative approach, offering a unique role for every health care member to perform.

Amrita Institute of Medical Sciences began its success story in organ transplant in 2001 and has done nearly 500 kidney transplantations and 425 liver transplantations till date. It is also a center for small bowel, bone marrow, pancreas, heart and corneal transplantation. For the first time in South East Asia, hand transplantation was carried out successfully on 13th January, 2015 and a second one just after three months. On 8th September 2015, AIMS was declared as a Centre for excellence in organ transplantation by Dr. Harshvardhan, Hon'ble Union Minister for Department of Science & Technology, India.

AIMS being a forerunner in this field, Amrita College of Nursing, - a constituent unit of Amrita Vishwa Vidyapeetham, NAAC "A" grade - has prepared a platform to share its wealth of knowledge through the **National Conference on "Organ Transplant - Together, Towards Tomorrow" on 20th & 21st November, 2015**. Expecting your presence to meet the transplant team.

With warm regards,

Prof. K.T Moly,

Chairperson, National Conference

Principal, Amrita College of Nursing

Theme

"Organ Transplant - Together, Towards Tomorrow"

Sub themes:

- Trends and challenges in Organ Transplant
- Nurses' role in Organ Transplant
- Medico legal aspects in Organ Transplant
- Psycho social aspects of Organ Transplant
- Life after Organ Transplant

Aim

To explore the challenges faced by the multi disciplinary team in organ transplantation so as to promote the well-being of both donor and recipient considering the medico legal and psycho social aspects.

Objectives:

1. Identify the significance, trends and challenges of organ transplant
2. Discuss the management of patients undergoing transplantation of various organs
3. Highlight the medico-legal aspects in organ transplantation
4. Identify the role of Governmental organisation in organ transplantation
5. Describe the extended role of a nurse in organ transplantation
6. Explore the lived-in experiences of persons involved in organ transplant

Target Beneficiaries:

All Health Care Professionals including Doctors, Nurses, Social workers, Faculty, Transplant Co-ordinators, Undergraduate and Postgraduate students, PhD Scholars, Sociologists, Psychologists, Physician Assistants, Citizens with a genuine interest in organ transplantation.

Call for Abstracts :

Abstracts are invited for oral and poster presentations, based on any of the sub theme of the conference. Only original research articles will be selected for oral presentation. Posters may include case study/report, meta analysis, concept maps and pictorial case learning. Abstracts should be submitted as MS word document, limited to 250 words in English and should contain introduction, methods, results and conclusion, with authors name, address, telephone number and e-mail ID. The duration of oral presentation is 10 minutes. The poster size should be 4 x 3 feet or 120 x 90 cm. The abstract may be submitted by email on or before **30th October, 2015**. Only registered delegates are eligible for oral/poster presentations. Abstracts may be sent to: amritacontp15@aims.amrita.edu
